

TOURISM and TRAVEL

TAT 302

This is **not** an approved subject for University Entrance

This course covers the introductory skills course for the National Certificate in Tourism and Travel and prepares students for further training in the tourism and travel industry. Students awarded with this certificate are able to demonstrate both written and verbal communication skills as well as application of mathematics and information technology in the context of the tourism and travel industry. This includes knowledge of world and NZ Geography, including tourist destinations worldwide. Geography relates closely to the studies within the course.

Students will cover the following compulsory Unit Standards:
