

Technology - Textiles TET 101

LEVEL 1

Credits: 16-27 Achievement Standard credits

Leads onto: Skills for Living [SFL]

Course of Study:

Year 11 Technology - Textiles is an Achievement Standard based programme which teaches the fundamental skills of Technology within the context of textiles and garment construction. Students develop construction skills and an understanding of Design and the Technology problem solving process. There are optional external Achievement standard credits which must be done for Merit and Excellence course endorsements.

Costs: Students pay a small course materials fee and purchase their own project requirements.
